Terry Tate, RN, MS is a speaker, storyteller and consultant who has been threatened by two issues of fatal cancer from which she had a 2% chance of survival. But her sense of humor was never in danger.

Karen Drucker

has recorded 14 CDs of her original inspirational music and also wrote a book, Set the Spirit Free: Stories and Songs that set the fire. She has several professional credentials, and was a performer and spokesperson for “Bread and Roses” (performing in convalescent hospitals, prisons, and children’s hospitals). She has been a music director of New Thought Churches, as well as a music director and “creative director” of many spiritual conferences and retreats. Karen has been called a “master of communicating presence and spirituality through music.”

CANCER as a TURNING POINT
From Surviving to Thriving*

The purpose of this program is to educate, inspire, connect, and celebrate all whose lives have been touched by cancer or any life-altering illness.

- Cancer or any life-altering illness can be viewed as both a curse and a blessing.
- If viewed simply as a disease of the body, it is experienced as a curse.
- When we view illness in the context of the whole person (body, mind, emotions, spirit), we see its transformative potential as an awakening for the soul and spirit.
- When viewed as an illness, it can be experienced as a blessing.

CONFERENCE OBJECTIVES
- Differentiate between surviving the disease and thriving as a person.
- Relieve fear and stress by looking for the positive.
- Explore illness as an awakening with transformative potential.
- Celebrate the healing capacity of the human spirit.
- Confront how fear and stress can impact our health and our ability to control our own health.
- Facilitate healing from within as an essential component of total health.
- Experience the spiritual, emotional and nutrition benefits of the program.
- Incorporate stories, music and laughter as part of the healing process.
- Explore the impact of psychosocial and spiritual practices on the immune system.
- Facilitate healing from within as an essential component of total health.
- Facilitate connection among people and organizations with common goals and interests.
