Cancer as a Turning Point from surviving to thriving™

The purpose of this conference is to educate, inspire, connect and celebrate all whose lives have been touched by cancer.

Who Should Attend

- Anyone touched by cancer
- Caregivers, family members, or friends of someone touched by cancer
- Physicians, Nurses and other Healthcare Providers

The Healing Process

- Cancer can be viewed as both a curse and a blessing.
- If viewed simply as a disease of the body, it is experienced only as a curse.
- When illness is viewed in the context of the whole person (body, mind, emotions and spirit), we see its transformative potential as an awakening for the soul and spirit and a call to action.
- Only then can we see it as a blessing and use it for gifts.

Conference Objectives

- Differentiate between curing the body and healing the person
- Explore illness as an awakening with transformative potential
- Rekindle hope and motivation to live fully in the present
- Rediscover the healing capacity of the human spirit
- Facilitate healing from within as an essential component of total health
- Incorporate music, stories, and laughter as part of the healing process
- Experience the physical and emotional benefits of group support
- Convey how diet and nutrition can help control cancer and promote wellness
