The person exists on many levels...and none of these can be reduced to any physical, psychological and spiritual... Others. To move successfully toward health, all must be treated.

Jeanna Anderson, PhD, CNC is an authority in integrative cancer care, educating cancer patients and their health-care providers about evidence-based dietary, nutritional and botanical support to complement conventional oncology care. She specializes in primary malignant brain tumors and has extensive experience working with other cancers. She is a leader of nutritionists, has lectured heavily on cancer and nutrition, and serves as a consultant to many nonprofit and cancer centers across the US, and internationally.

Peter Giordano is a musician and the inventor of the keynote event format, THE VISUALS™, an art form and signature show that has gone on to performance for over 25 years. He is the Creative Arts Director at the Bridges Center for Human Enhancement in Menlo Park, California and is an early adopter and creator of the art education programming to Place Center for Autisms, to alternative schools, and was called the Bridges Center after Peter often holds arts programming that humanizes treatment environments, equips creative caregivers with the intrinsic power of creativity, and building community.

Dr. Ista Monica Parker is an award-winning blues and gospel singer songwriter and 3-time nominee for the Blues Music Awards. She has won 30 regional and national awards, including the major music television networks: PBS, ABC, Fox, TV; The Learning Channel, and both national and international film festivals. Together, the duo makes up The Joplin Experience, the acoustic singing experience that embraces participants by integrating the music with the story of themselves, the side that can be fully and completely alive – all in just one note.

Dr. Lawrence Suiter is an assistant professor of Counseling and Clinical Psychology at Santa Clara University. He is a professor of trauma and potentially life-threatening medical illness experience growth and healing. His book, The Power of Healing and the Mind, was released in 2010 and is an inspiring collection of stories from survivors of cancer and other serious medical conditions. His research and writings have addressed such topics as hope, meaning, and growth in the face of negative events. His book, The End of the Affliction: A Journey of Coming to Terms with Cancer, was written after facing the serious illness of a loved one. www.suiter.com

Dr. Abraham Verghese, MD, MACP is a Professor of Medicine at Stanford University School of Medicine, and Senior Associate Chair of the Department of Internal Medicine. He authored three New York Times bestselling books: Cutting for Stone, Page One, and My Own Country. His latest book, Dr. Death, is a non-fiction novel on the medical humanities. He was the Founding Director of the Center for Medical Humanities at Stanford Science Center. In his work and writing, he emphasizes bedside medicine, valuing personal attention and patients and families, and seeing a role for healing with medicine.

Lana Watters is a movement therapist, dancer, and actor. She brings a unique and comprehensive approach to embodiment since over 25 years of study and practice. She also holds a degree in Opera, and a Certified Theater Action Coach. Diana teaches Dance, Theater, Voice at Stanford University and has a successful practice in Voice and Movement Therapy. She facilitates expressive movement for women with cancer at Arts and the Animal Foundation.
The purpose of this program is to educate, inspire, connect, and celebrate all whose lives have been touched by cancer or any life-altering illness.

- Cancer or any life-altering illness is treated as both a curse and a blessing.
- If viewed simply as a disease of the body, it is experienced as a curse.
- When we view illness in the context of the whole person (body, mind, emotions and spirit), we see its transformative potential as an awakening of the soul and spirit.
- Only then can we see it as a blessing and utilize its gifts.

**WHOM TO ATTEND**

- Women and men touched by cancer or any life-altering illness.
- Healthcare providers.
- People supporting friends or family touched by cancer or other illnesses.

**CONFERENCE OBJECTIVES**

- Differentiate between curing the body and healing the person.
- Help people and institutions to live fully in the present.
- Explore wisdom as a way of awakening and transforming our inner spirit.
- Celebrate the healing capacity of the human spirit.
- Give new meaning and value to health care professionals.
- Facilitate healing from within as an essential component of total health.
- Experience the physical and emotional benefits of group processes.
- Incorporate stories, music and laughter as part of the healing process.
- Explore the impact of psychosocial and spiritual practices on the immune system.
- Facilitate connection among people and organizations with common goals and concerns.
