"I have learned over and over
again that a life-threatening illness
is soul-shaking for everyone
involved, that it provides us an
opportunity to get intimations and
intuitions about why we are here,
and what and who really matters."

From Close to the Bone
by Jean Shinoda Bolen, MD

His third book, Sabbath: Restoring the Sacred Rhythm of Rest, explores how, in the relentless busyness of modern life, we have lost the essential rhythm between work and rest. His latest book is called Learning to Pray: How We Find Heaven on Earth, a guide for finding peace in ourselves and in the world in the midst of troubled times. Mostly original songs, it offers hope and a reflection of her remarkable recovery experience. www.sistamonica.com.

Cancer as a Turning Point

From Surviving to Thriving™

Purpose

The purpose of this conference is to educate, inspire, connect and celebrate all whose lives have been touched by cancer or any life-altering illness.

- Cancer or any life-altering illness can be viewed as both a curse and a blessing.
- If viewed simply as a disease of the body, it is experienced only as a curse.
- When we view illness in the context of the whole person (body, mind, emotions and spirit), we see its transformative potential, as an awakening for the soul and spirit. Only then can we see it as a blessing and utilize its gifts.

Who Should Attend

- Women and men touched by cancer or any life-altering illness
- Healthcare providers
- People supporting friends or family touched by cancer or other illness

Conference Objectives

- Differentiate between curing the body and healing the person
- Explore illness as an awakening with transformative potential
- Rediscover the healing capacity of the human spirit
- Facilitate healing from within as an essential component of total health
- Experience the physical and emotional benefits of group support
- Incorporate stories, music and laughter as part of the healing process
- Discover the impact of psycho-social and spiritual beliefs on the immune system
- Facilitate networking among people and organizations with common goals and concerns
